

Thornhill Primary School Nursery Intimate Care and Toileting Policy

All children at Thornhill Nursery have the right to be safe and be treated with dignity, respect and privacy at all times so as to enable them to access all aspects of the Thornhill Nursery.

This policy sets out clear principles and guidelines on supporting intimate care with specific reference to toileting. It should be considered in line with our Safeguarding Policy, Health and Safety Policies and Administering of Medicines policy.

This policy supports the safeguarding and welfare requirements of Early Years Foundation Stage (EYFS) 2012 and the Disability Discrimination Act 2005:

Thornhill Nursery will ensure that:

- No child's physical, mental or sensory impairment will have an adverse effect on their ability to take part in day to day activities.
- No child with a named condition that affects personal development will be discriminated against
- No child who is delayed in achieving continence will be refused admission
- No child will be sent home or have to wait for their parents/carer due to a medical condition.
- Adjustments will be made for any child who has delayed incontinence

Intimate Care Tasks

In the event of a child having a toilet accident, the child will be changed into clean clothes provided by the parent. At all times there will be two members of staff present. The child will be cleaned as well as possible and parents are advised to bath them at home when staff feel this is necessary. In the event of a child becoming upset staff members will comfort them in an appropriate manner, where possible console them without lifting them onto a lap. This will always be in the presence of other members of staff. It is age appropriate for some two year olds to still be in nappies/pull ups. These will be changed as needed and parents will need to supply their own. Any changes will be recorded in the toileting folder. We will toilet train children when they are ready in partnership with their parents. Two year olds need "External Intimate personal care which means accepting that good care involves close, external, respectful physical contact"

Partnership with Parents/Carers – Staff/Child's keyworker at **Thornhill Nursery** works in partnership with parents/carers to provide care appropriate to the needs of the individual child and together will produce a care plan. The care plan will set out:

- What care is required
- Number of staff needed to carry out the task (if more than one person is required , reason will be documented)
- Additional equipment required
- Child's preferred means of communication (e.g. visual, verbal). Agree terminology for parts of the body and bodily functions
- Child's level of ability i.e. what tasks they are able to do by themselves
- acknowledge and respect for any cultural or religious sensitivities related to aspects of intimate care

Thornhill Primary School Nursery Intimate Care and Toileting Policy

- Be regularly monitored and reviewed in accordance with the child's development

Parents/Carers are asked to supply the following:-

- Spare nappies
- Spare clothes
- Spare underwear
- Wipes

Best Practice – When intimate care is given, the member of staff explains fully each task that is carried out and the reason for it. Staff should encourage children to do as much for themselves as they can, lots of praise and encouragement will be given to the child when they achieve. Staff will record the incident and a note will be sent home to the parents.

All staff working in early years setting must have a DBS check.

Safeguarding – Staff are trained on the signs and symptom of child abuse which is in line with Bedfordshire Safeguarding Children's Board guidelines and are aware of the DFES booklet 'What to do if you think a child is being abused' and will follow the guidance given.

If a member of staff is concerned about any physical or emotional changes, such as marks, bruises, soreness, distress etc. they will inform the Designated Safeguarding Lead (DSL) immediately. The Child Protection and Safeguarding Policy will then be implemented.

Should a child become unhappy about being cared for by a particular member of staff, the EYFS Teacher will look into the situation and record any findings. These will be discussed with the child's parents/carers in order to resolve the problem. If necessary the EYFS Leader will seek advice from their Headteacher and other agencies. (Please remember that you need parental permission to talk to any agency about a specifically named child.)

If a child makes an allegation against a member of staff, the procedure set out in the Safeguarding Policy will be followed.

Dealing with body fluids – Urine, faeces, blood and vomit will be cleaned up immediately to the best of our capability. When dealing with body fluids, staff wear protective clothing (disposal plastic gloves and aprons) and wash themselves thoroughly afterwards. Soiled children's clothing will be bagged to go home, Thornhill nursery staff will not rinse it. Children will be kept away from the affected area until the incident has been completely dealt with.

All staff maintain high standards of personal hygiene, and will take all practicable steps to prevent and control the spread of infection.

This policy aims to manage risks associated with toileting and intimate care needs and ensures that employees do not work outside the remit of their responsibilities set out in this policy.
