

Tony Swain

My name is Tony Swain and I am the joint chair of governors.

I have a mechanical engineering background, for the last years of my working life I was employed as an Instructional Officer in the Prison Service. This was training inmates in vocational skills to enable them to gain employment when released.

Presently I am an elected member of Houghton Regis Town and Central Bedfordshire Unitary Council. As such I am passionate regarding the quality of life and prosperity for the residents.

I consider every child has a right to a happy childhood combined with the ethos to learn and work to the best of their abilities.
