

A Summer Holiday Project

For your summer project I would like you to design the 'perfect' garden.

What would you expect the 'perfect' garden to look like?

How will you present your work?

You may like to make a model using different recyclable materials, clay or even LEGO.

You might want to create a poster with hand drawn pictures and sentences to describe each part of the garden.

You might want to create a bird's eye view map of your garden with pictures and labels.

You might want to show your work in a book with writing about each section in your garden.

Some ideas to include in your garden...

-which flowers would you have?

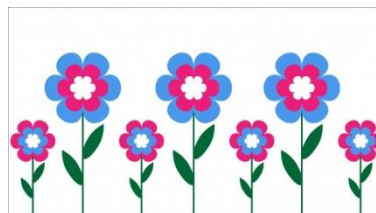

-Would there be any trees?

-How would you play?

-What would you play on/with? e.g. a climbing frame? A treehouse?

-Would there be a nice area to sit with your family and enjoy your garden?

-Would there be things to attract animals? e.g. bird feeders? Bright colours for bees?

I look forward to seeing your fantastic projects in September!
