

<p>Think <u>Happiness is...?</u></p> <p>What are you in to?</p> <p>Do you support a football team? Are you very fond of animals? Do you have a special interest in space? Maybe it is Disney films?</p>	<p><u>My favourite food is...</u></p> <p>Now decide on your favourite type of food, such as:</p> <ul style="list-style-type: none"> Pasta Burgers Chinese Waffles 	<p> <u>Put them together</u></p> <p>Imagine if you could go and eat your favourite foods surrounded by your favourite things! How amazing would that be!</p> <p>'Puppy Petting Ice Cream Parlour' 'Pokémon Noodle Bar'</p>	<p><u>Design the eating space</u></p> <p>How will your establishment look?</p> <p>Round or rectangular tables? Does it have a colour theme? What decorations are on the wall? How will you include your theme?</p>
<p><u>What's on the menu?</u></p> <p>Create a menu for your coffee shop, café, saloon or pizzeria. Could the dishes have names linked to your theme?</p> <p>Research some children's menus online to help generate ideas.</p> 	<h1 style="text-align: center;">Summer Project 2020</h1> <p style="text-align: center;">Dear Year 5 pupils of the future,</p> <p>We are really looking forward to welcoming you back in September and am really excited to see the results of this project, which you will present to the class during the first week back. What I would like you to do, is invent a new kind of restaurant, café or dining experience that is linked to something that you are really passionate about. For example, I would love to go to a Star Wars themed pancake restaurant, where all the walls and ceilings were painted like outer space, the waiters and waitresses were dressed as Star Wars characters, and all the different pancake dishes had names linked to Star Wars – Chewbacca's Chewy Choccy Pancake, Skywalker's Strawberry Split Pancake. You get the idea?</p> <p>The steps in each box are to help you put together your own unique ideas and produce an imaginative project. This can include: writing, drawings, menu, photos, models, power points and posters – it is entirely up to you.</p> <p style="text-align: center;">Get your thinking caps on!</p> <p style="text-align: center;">Miss Terry and Miss McConnell</p>		<p><u>Do you have a 'signature' dish?</u></p> <p>A 'signature' dish is a recipe that is unique to you and your establishment. It will become a famous dish that people will be able to link to your restaurant. A bit like the 'Zinger Burger' at KFC!</p>
<p> <u>How much?</u></p> <p>How much should you charge for each dish?</p> <p>Too expensive and people may not visit. Too cheap and you will not make any money and your restaurant will close down.</p>			<p><u>Create a model of your signature dish</u></p> <p>See if you can create a model of what your signature dish would look like. Does it look as tasty as you would like? What will you call it? If you like creating models, you could make a model of your establishment using the inside of a cereal box!</p>
<p><u>Tasting session</u></p> <p>Can you put your chef uniform on and cook one of the dishes on your menu? Ask an adult to help you use equipment safely and remember to wash your hands before you start cooking.</p> 			<p><u>Advertise your new food establishment</u></p> <p>Design a poster to let everybody know about your amazing new business. Remember bright colours, bubble writing, pictures and useful information.</p>

This looks so bright and colourful – perfect for an ice cream café maybe

A theme

This is a great example of a theme. Do not research it a little and look at the details of the inside and the names of the items on the menu.
